

Quality Policy Statement

Limbco is a family run business formed in 2019 to supply a range of medical device to healthcare professionals for the non-surgical treatment of varicose veins and hyperhidrosis. Limbco offers a range of products used in Sclerotherapy and for the treatment of Hyperhidrosis (excessive sweating), all of which offer patients genuine alternatives to surgical procedures. Limbco also offers a range of logistical and administrative support services to third parties within the UK healthcare sector.

Quality is important to our business because we value our customers as well as all other stakeholders. We strive to provide our customers with products and services which meet and exceed their expectations.

We are committed to continuous improvement and have established a Quality Management System which provides a framework for continuously measuring and improving quality performance.

We have the following policies and procedures in place to support us in our quality goals and align with our quality system:

- *Regular gathering and monitoring of customer feedback*
- *A strict corrective and preventative action procedure*
- *Selection and performance monitoring of the entire supply chain*
- *Continuous training and development of employees*
- *Regular quality audits of our internal processes*
- *Measurable quality objectives which reflect our business aims*
- *Management reviews of audit results, customer feedback and complaints*

Our internal procedures are reviewed regularly and are held in our document management system which is made available to all employees.

Management has ultimate responsibility for quality, but we ensure all employees understand their responsibilities within their own areas of work to help ensure that quality is embedded within the whole company.
